BOOKKEEPERS AND ACCOUNTANTS. Ambitious men who recognize the tresanticus shortage of "specialized brains"
and who have some acceunting ability, will
welcome the information that a prominent
firm of certified public accountants has
made available a scientifically simple and
intrusely interesting home study training;
the shortage of accountants to fill 1,066 to
110,000 positions is regarded as a national
inficiency, which can only be remedied (as
were our military and naval shortcomlings)
by infensive training; accounted applicants

TO THE MOTHERS OF WASHINGTON:

The following letter has been received by the Circulation Manager of The Times:

I have not received my Times for two days. Please see that I get it every evening, as I have a boy in France, and to me all war news is news from him. I must read the casualty list after supper.

This letter, simple though it in carries an irresistible appeal. This appeal, ad-This letter, simple though it is, carries an irresistible appeal. This appeal, addressed to us, we in turn address to the mothers of Washington.

The Times is trying as hard as possible to deliver papers regularly. However, the shortage of inbor has hit route boys as well as other walks of life. We have found, however, that there are a number of boys who would like to serve "newspaper routes," but are forbidden by their names in the serve of the serve "newspaper routes," but are forbidden by their names in the serve "newspaper routes," but are forbidden by their names in the serve "newspaper routes," but are forbidden by their names in the serve "newspaper routes," but are forbidden by their names in the serve "newspaper routes," but are forbidden by their names in the server in the server

To these parents we bring this appeal. The evening news is recognized by the Government. A boy delivering a newspatier route is emgaged in patriotic effort. We are making special inducements to currier boys. Balaries have been doubled. The work requires about an hour each evening.

evening. We sek that the mothers of Washington give this consideration and urge their sons to help make some mothers' hearts glad each evening by bringing them news of their buys.

HELP WANTED-FEMALE

MISS GREGORY'S TALK TO YOUNG WOMEN NO. 60.

Late rulings in the various de-partments of our Government, I have noticed, demand that for two periods, one in the morning and one in the afternoon, every em-ploye must go out into the open air for 15 minutes while workrooms are fully sired and ven-tilated. This I understand is an extra precaution taken against the attacks of the "Spanish Influenza."

But the real thought that Interests me in this is the fact that we have been doing this particular thing among our employes and in our bullding for years and that a telephone operator is allowed regular rest periods, in which periods she can enter a fully ventilated

But I want to impress on your mind that these rest periods are not the only features of being a telephone operator for the C. & P. Telephone Co. At lunch time you don't have to enter a crowded and badly ventilated lunch room to buy your lunch, but you can lunch in a modern well-ventilated lunch room, where a few sat at a and at prices that are much

Truthfully I can say that there is no other occupation for a young woman that offers such perfect precautions against infection and yet gives a young woman such an excellent chance to start right in the business world at a very good

Call and see me at any time-for I am always pleased to meet ambitious young women.
